The background image is a screenshot of a HeiReS control interface. At the top, there are four 'Calibrate' buttons, each with a gear icon. Below them is a 'Chuck Position' section. The main area shows a top-down view of a circular workpiece with 'AUX L' and 'AUX R' labels. To the left, there is a 'Temperature' section with a scale from -40° to 250° and a 'Controlling' section with four buttons and the instruction 'Hold the buttons two seconds to set temperature'. At the bottom, there is a 'START' button and a row of five circular icons. An orange banner with white text is overlaid across the middle of the screen.

You can only really convince through references and projects.

The background image is a screenshot of a HeiReS control interface. It shows a 'Wafermap' section with a grid icon and the value 'Y = -2345.7'. Below it is a 'Vision' section. An orange banner with white text is overlaid across the bottom of the screen.

Demand real references.
